

To Whom It May Concern: I am writting you in regards to a recent notification that I received of the attempt to weaken the current State telephone privacy law. It is my understanding that the CBA is attempting to impose the federal "established business relationship" exemption on Indiana consumers. I would like to voice my opinion that I would NOT want to see any changes or amendments made to the current State Privacy Law. In addition I would NOT want to see the CBA succeed in their current petition.

Thank you for your time.
